Detailed description: The image is a technical drawing of an access door assembly. The top view shows a square access door opening with rounded corners (R3") and a 22" x 24" size. It is surrounded by a 3" thick frame. The door is mounted on a 26" wood frame opening. The door is held closed by a flushed cam latch and three concealed spring-loaded hinges. The door is secured with a tape joint. The side view shows the door is 22" high and the frame is 28" high. The door is mounted on a 26" wood frame opening. The door is held closed by a flushed cam latch and three concealed spring-loaded hinges. The door is secured with a tape joint.
